

The Balnaves Foundation Grants

Supports Australian not-for-profit organisations that work in the arts, health and education, with a focus on initiatives that benefit young people, First Nations and those facing disadvantage.

If your organisation primarily works in the arts, health or education, then you are welcome to submit an online Expression of Interest (EOI) through our General EOI process.

There are no specific grant rounds for our General EOI process and submissions are generally open year round.

The Foundation only supports grants delivered in Australia by Australian not-for-profit organisations. The Foundation prefers to support multi-year projects with a funding range of \$150,000 – \$250,000 per annum.

Within the health space, The Balnaves Foundation is focused on supporting projects that deliver significantly improved health outcomes for young Australians through the prevention and early intervention of chronic health conditions.

Please note that the Foundation's trustees meet four times a year. If your EOI moves forward to the Proposal stage it may take between 3-6 months from your initial EOI submission for it to be presented at a Trustee meeting. The Foundation recommends timing your EOI submission to allow for this. Submissions received less than 3 months before the commencement date are unlikely to progress.

Provider:

The Balnaves Foundation

Amount: From \$150,000

Rounds: Always Open

Locations:

- National

Who Can Apply:

- Non-Government
- Community Groups
- Education
- Health
- Other

Co-Contribution Required:
Unspecified by Provider

URL:

<https://balnavesfoundation.com/how-to-apply/general-eois/>

Who is eligible:

- Australian not-for-profit organisations that work in arts, health and education and hold both Deductible Gift Recipient (DGR) Item 1 and Tax Concession Charity (TCC) OR have an approved auspicing arrangement in place.

Additional Considerations:

- The Foundation prefers to support projects rather than recurrent administrative, operational or capital expenditure. However, operational costs that are directly related to the specific project can be included in your budget and will be considered.
- The Foundation is conscious of not becoming too large a share of any organisation's overall funding. If your funding request exceeds 15% of your total annual revenue, you will have the opportunity to explain why this level of funding is appropriate in the EOI form.
- If the proposed project involves interaction with young people (e.g. a youth art program) it is a condition of funding that the applicant must comply with all Australian laws relating to employing or engaging people who work or volunteer with children, including Working with Children Checks, and align their practices with the National Principles for Child Safe Organisations.
- Projects involving First Nations cultural material, or where First Nations peoples and communities are the primary beneficiaries, must be First Nations-led or developed in genuine partnership with First Nations people and communities. If your organisation is not First Nations-led and primarily serves First Nations people and/or communities, you must be able to demonstrate that First Nations creative sovereignty is reflected in the project governance and design.

The Foundation is interested in initiatives of:

- Innovation Solutions: where positive outcomes reach beyond the immediate activity
- Outstanding Individuals: passionate, driven, ambitious and the capacity to deliver
- Strong Commitment: from an organisation and its leaders, to the project or program
- Deep Engagement: the opportunity to add value beyond the financial.
